**The grant of a Second Advance under the Aided School Provident Fund Scheme, on certain conditions.**

READ—

Government Order No. 2792-3—Edn. 27-16-86, dated 11th September 1920, approving of the scheme of a State-aided Provident Fund for the benefit of the employees in Aided Schools in the State.

2. Letter No. D1-7958-503 of 27-28, dated 9th July 1928, from the Director of Public Instruction, stating that the rules under the Aided School Provident Fund issued with the Government Order read above do not provide for the grant of second advances at all, and that in the case of the State Provident Fund, it is laid down in Rule 10 c (2) of the rules thereof "that a second advance is not granted when any portion of the first advance is still unpaid or unless the unpaid portion is refunded at once by deduction from the new advance, and that except for strong reasons to be recorded in writing by the sanctioning authority, no new advance will be allowed until at least 12 months will have elapsed since the date of the previous advance" and requesting with a view to obviate the hardships now caused to some deserving applicants of the Aided Schools, that the provision in regard to the grant of a second advance may be similarly extended to cases falling under the Aided School Provident Fund and incorporated under Rule 18 (iii) of the Aided School Provident Fund.

ORDER No. D. 3614-15—EDN. 46-28-2, DATED 24TH SEPTEMBER 1928.

Government are pleased to approve of the proposal of the Director of Public Instruction.

The rule in regard to the grant of the second advance under the State Provident Fund Rules, may be incorporated under Rule 18 (iii) of the Aided School Provident Fund.

## ANNUAL REPORT OF THE SERUM INSTITUTE FOR THE YEAR 1927-28.

### INTRODUCTION.

The Serum Institute has been established with the primary object of meeting the needs of the State for Serum to combat our most serious cattle disease—Rinderpest. Prior to its organisation, the State Veterinary Department drew its serum supplies from the Imperial Veterinary Institute at Mukhtesar, a procedure which led to a large expenditure of money on transport; at times also supplies have not been available when they were required.

2. The conditions under which the Serum Institute has had to work during the first year of its existence have been by no means ideal. In the first place, buildings constructed for an entirely different purpose have had to be adapted to serve as laboratories and preparation rooms. In the second place, the original sanction was for a period of only three months, the expiry of the period coinciding almost exactly with my taking over charge of the Agricultural Department. This led inevitably to a dislocation of work at a time when serum was most urgently required. Notwithstanding this fact, the work of the Institute has been extremely creditable, the amounts of the serum turned out being considerably in excess of my anticipations.
